

A part of Scana

## **Control Circuit D21 SRA**

## **DIRECT INDICATION OPEN/CLOSE (WITH SPRING RETURN)**

- PRESSURE LINE
- RETURN LINE
- ELECTRIC SIGNAL

## Open/Close control, fail to close. Direct indication.

Control via spring loaded directional valve, 4/2 type, activated by one solenoid operated by electric signal.

Open/Close indication by two micro switches mounted in stainless steel housing, protection grade IP68, mounted directly on the actuator.
